Libya: The regime may exploit the smuggling of a Libyan Jew to Malta as a case of Israeli espionage.

The Libyan foreign minister, in asking for the man's identity, expressed extreme concern that the incident may be a "dangerous case of espionage which Israel organized from within Wheelus Air Base," an allegation immediately denied by the US ambassador. The foreign minister also asked that the American involved in the incident be returned to Libya for trial.

The US Embassy has agreed to a Libyan request for full custom and immigration control at the base. Libyan soldiers inspected the cargo of an American military aircraft that arrived at Wheelus yesterday.
